ISSA Rochester News

Chapter of ISSA International
www.rocissa.org

Past Events:

We have had several events over the past few months, including a workshop with Kali Linux in Forensics and wonderful presentation by GuidePoint Security, complete with Dinosaur BBQ.

The second in a line of several Kali Linux seminars, put together by our own Rochester ISSA Chapter President Rich Savacool, was held at Nixon Peabody in March. This seminar dealt with the forensic tools in Kali Linux. The seminar was very enlightening and as most of Rich's presentations are, quite entertaining. We are still working on a make-up date for the Kali Linux session dealing with Penetration testing. I know many of you are looking forward to this next event, so rest assured that we will get it into the schedule and notify everyone as soon as we put together the date!

The presentation by GuidePoint Security's Bryan Orme focused on 2015 Security Trends. The information was a great overview of things happening across several industries. Along with the enlightening information, GuidePoint also provided all in attendance with Dinosaur BBQ, filling stomachs with great food and brains with knowledge!

We highly encourage our members to take advantage of chapter meetings. We also encourage non-members to attend and come see what we are all about!

Need CPEs?

- Attend an ISSA chapter meeting
- Speak at RSS or a chapter meeting
- Volunteer for a committee
- Write a journal article

Upcoming Events:

Chapter Meeting

We have several meeting topics lined up for the next 6 months!

June 22nd – Mulconry's Social Event Sponsored by Forsythe

July – Social (Engineering) Event with GreyCastle Security

Sept – End Point Security with Bit9/Carbon Black

Check our website (www.rocissa.org) for more details as the dates draw near!

If you have an idea for a meeting, or any suggestions or comments on past meetings for events please let us know at membership@rocissa.org.

Membership:

We strive to provide value to our members and the security community at large. If you have an idea for a chapter meeting, social gathering, or other event please contact membership@rocissa.org.

Remember we are here to help you! So please let us know what you want and we can hopefully tailor our events to fit the needs of our members.

Communications:

Have an article you really enjoyed or are you writing an article you really want to share with everyone? Send it to info@rocissa.org and we can put it in the newsletter!

Have a question you really need help with? Join us on LinkedIn and start a discussion in the *Rochester Chapter Information Systems Security Association* group.

Rochester ISSA is now on twitter. Check us out at @RocISSA and stay up on the latest infosec news.

Rochester Security Summit 2015

Tuesday October 6th and Wednesday October 7th

Hyatt Regency Rochester
www.rochestersecurity.org

Registration now open!

Call For Presentations

We are currently accepting presentations for this year's summit. We are always in need of speakers, and would love to have members participate. Have an idea for a talk, we can get you always needed CPEs!

If you have a topic you would love to present please email present2015@rochestersecurity.org and they will let you know when the call for presentations opens!
